### What are the risks of investing?

#### Risk indicator for the Mercer Emerging Markets Shares Fund<sup>3</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz](http://www.sorted.org.nz)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

## What fees are investors charged?

Investors in the Mercer Emerging Markets Shares Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total Fund Charges</b>	1.69%
Which are made up of:	
<b>Total Management and Administration Charges</b>	1.65%
Including:	
Manager's basic fee (excluding GST <sup>6</sup> )	1.35%
Other management and administration charges (including GST)	0.30%
<b>Total Performance Based Fees*</b>	0.04%

\* The performance fees paid or rebated vary from year to year depending on the outperformance of the underlying funds in which the fund invests. The Fees in the current PDS are based on investment managers' average positive outperformance over the last five years. However, the performance fees in this fund update are based on actual fees paid (or rebated) for the year to 31 March 2022. See the product disclosure statements that applied for the year ending 31 March 2022 for more information about the basis on which performance fees were charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Mercer Global Shares Funds on the offer register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

At the end of the year, Ben incurred a loss after fund charges were deducted of -\$533.00 (that is -5.33% of his initial \$10,000). Ben also paid \$0.00 in other charges. This gives Ben a total loss after tax of -\$533.00 for the year.

## Notes

1. On 3rd March 2023, Mercer (N.Z.) Ltd became the manager of the fund. The previous manager was Macquarie Asset Management Public Investments (NZ) Limited. From 3rd March 2023, the Macquarie Emerging Markets Shares Fund is called the Mercer Emerging Markets Shares Fund.
2. Gross Return is the return before the deduction of tax, expenses and fees and assumes all income is reinvested.
3. In previous quarters, the risk indicator has been calculated based on the weekly returns of the Fund. The basis of the risk indicator has changed to the monthly returns to be consistent with other investment options managed by Mercer (N.Z.) Ltd.
4. These returns are for the periods ending 31 March 2023.
5. The bar graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or tax are deducted.
6. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. GST on management fees is currently under review and therefore this percentage may change in the future.
7. The returns and tax calculations used in this example are the actual fund returns and tax charges (or rebates) for the year ended 31 March 2023. Net of tax returns can be more than gross of tax returns where, due to the fund's tax position, it receives a tax rebate rather than paying tax.
