FOR THE QUARTER ENDED 30 JUNE 2022

MACQUARIE

## Macquarie Investment Funds

### Macquarie Ethical Leaders Balanced Fund<sup>1</sup>

This fund update was first made publicly available on: 28 July 2022

#### What is the purpose of this update?

This document tells you how the Macquarie Ethical Leaders Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Macquarie Asset Management Public Investments (NZ) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The fund is a diversified portfolio with a slightly higher allocation to a mix of growth assets (e.g. shares and listed property) relative to a mix of income assets (e.g. cash and fixed income). The fund takes a responsible investment approach and is managed to specific 'responsible investment' criteria which prohibit investments in certain companies or activities, and encourage investment in companies with strong environmental, social and governance characteristics.

This fund is governed by the Ethical Leaders Charter and has been certified by the Responsible Investment Association of Australasia (RIAA).

Asset allocations are actively managed in line with changing investment environments and conditions. An investment process is employed that combines financial analysis with a sustainability focus.

The fund targets an exposure to foreign currency shares (excluding Australian dollar shares) of 69% gross hedged back to the New Zealand dollar. For Australian dollar shares, the fund targets an exposure of 50% hedged back to the New Zealand dollar. For all other asset classes, the fund targets 100% hedging of foreign currency exposures back to the New Zealand dollar. Macquarie Asset Management has the discretion to alter these target positions.

The performance objective is to provide capital growth over the longer-term with moderate levels of volatility and to outperform, over the medium term, the weighted average return of the market indices used to measure performance of the underlying funds/assets in which the fund invests.

#### What are the risks of investing?

Risk indicator for the Macquarie Ethical Leaders Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz](http://www.sorted.org.nz).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 year period to 30 June 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

## Notes

1. In March 2022, Macquarie Asset Management Holdings Pty Limited completed the acquisition of the AMP Capital Global Equities and Fixed Income business from AMP Group Holdings Limited. Prior to that acquisition, Macquarie Asset Management Public Investments (NZ) Limited was known as AMP Investment Management (N.Z.) Limited and the Macquarie Ethical Leaders Balanced Fund was known as the AMP Capital Ethical Leaders Balanced Fund.
2. These returns are for the periods ending 30 June 2022.
3. The bar graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or tax are deducted.
4. The returns and tax calculations used in this example are the actual fund returns and tax charges (or rebates) for the year ended 31 March 2022. Net of tax returns can be more than gross of tax returns where, due to the fund's tax position, it receives a tax rebate rather than paying tax.
