

# FUND UPDATE

FOR THE QUARTER ENDED 31 DECEMBER 2021

## AMP Capital Investment Funds

### AMP Capital NZ Shares Fund

This fund update was first made publicly available on: 14 February 2022

#### What is the purpose of this update?

This document tells you how the AMP Capital NZ Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Investment Management (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The fund is a diversified portfolio of New Zealand shares with the scope to hold Australian shares. The investment approach is research driven and involves determining financial forecasts of companies. The results of these forecasts are then compared against each company's current share price. The investment manager looks for companies which have a sustainable competitive advantage, good growth outlook and the ability to grow earnings.

Environmental, Social and Governance characteristics are integrated into the underlying investment manager's investment process.

The base position is for the Australian dollar exposure to be unhedged.

The performance objective of the fund is to provide a Gross Return (see note 1 below) above the return of the S&P/NZX 50 Index (on a gross basis and including imputation credits) over a rolling three year period.

|                                  |                 |
|----------------------------------|-----------------|
| <b>Total value of the fund</b>   | NZ\$301,746,387 |
| <b>The date the fund started</b> | 05 June 1995    |

#### What are the risks of investing?

Risk indicator for the AMP Capital NZ Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz](http://www.sorted.org.nz).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 year period to 31 December 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|   | Average over past 5 years | Past year |
|---|---------------------------|-----------|
| <b>Annual return<sup>2</sup> (after deductions for charges and tax)</b>                   | 13.17%                    | 0.58%     |
| <b>Annual return<sup>2</sup> (after deductions for charges but before tax)</b>            | 14.18%                    | 1.16%     |
| <b>Market index annual return<sup>2</sup> (reflects no deduction for charges and tax)</b> | 14.66%                    | 0.20%     |

The market index annual return is based on the S&P/NZX 50 Gross Index (including imputation credits). Additional information about the market index is available on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

#### Annual Return Graph<sup>3</sup>

<sup>3</sup> Average Annual Return for the last 10 years to 31 December 2021

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2021.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the AMP Capital NZ Shares Fund are charged fund charges. In the year to 31 March 2021 these were:

|   | % of net asset value |
|---|----------------------|
| <b>Total fund charges</b>                                   | 0.77%                |
| Which are made up of:                                       |                      |
| <b>Total management and administration charges</b>          | 0.77%                |
| Including:  |                      |
| Manager's basic fee (excluding GST)                         | 0.75%                |
| Other management and administration charges (including GST) | 0.02%                |

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the AMP Capital Investment Funds New Zealand and Australian Shares Funds on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose) for more information about those fees.

### Example of how this applies to an investor<sup>4</sup>

Small differences in fees and charges can have a big impact on your investment over the long term.

Jeff had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jeff received a return after fund charges were deducted of \$3,199 (that is 31.99% of his initial \$10,000). This gives Jeff a total return after tax of \$3,134 for the year.

## Further information

You can also obtain this information, the PDS for the AMP Capital Investment Funds New Zealand and Australian Shares Funds, and some additional information from the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

## Notes

1. Gross Return is the return before the deduction of tax, expenses and fees and assumes all income is reinvested.
2. These returns are for the periods ending 31 December 2021.
3. The bar chart shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or tax are deducted.
4. The returns and tax calculations used in this example are the actual fund returns and tax charges (or rebates) for the year ended 31 March 2021. Net of tax returns can be more than gross of tax returns where, due to the fund's tax position, it receives a tax rebate rather than paying tax.
